I received an invitation about pharminnova Award distribution ceremony. It would have been a great pleasure to be a part of the function but due to prior engagements it won't be possible for me to attend the ceremony personally.

I congratulate all the students who are being awarded and their research guides for their exemplary work and wish them a very bright future ahead.

I also appreciate Rajnibhai V. Patel trust for the initiative being taken up by them to promote innovation amongst pharmacy students. These initiatives will certainly inspire the students for better performance and boost up innovation in Indian Pharmaceutical industry.
